CTS Tandem Volume-Tone Control Wiring Detail

Pickup & ground wiring is
NOT SHOWN
See guitar mfg's schematic for
all other connections

FIG.1:
Connections for 250K (Vintage)
volume, for single coil pickups

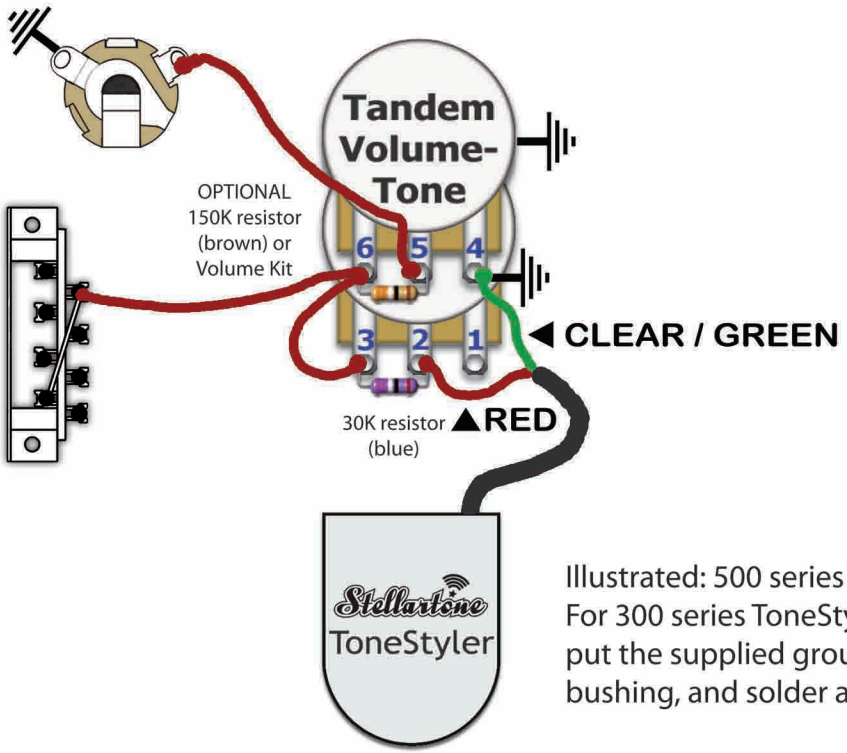

FIG.2:
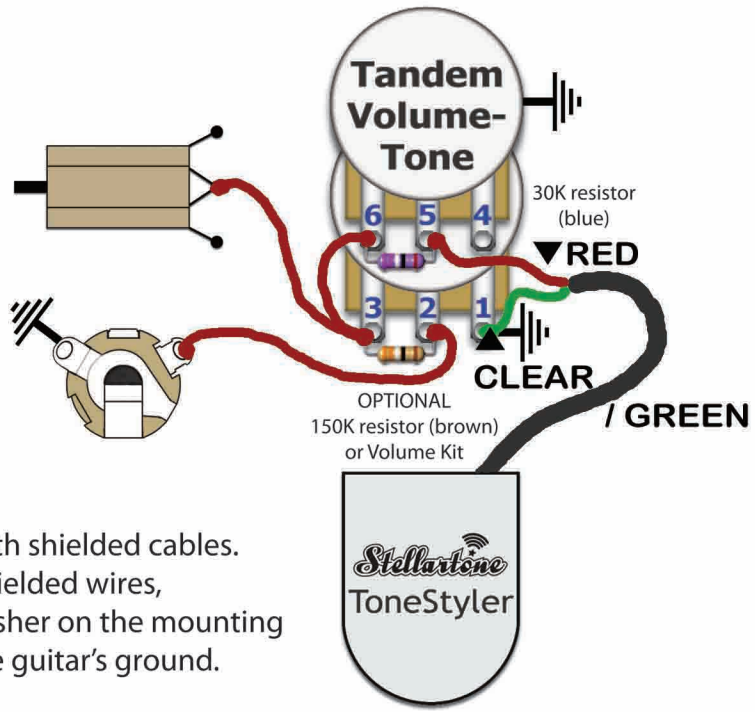
Connections for 500K (Vintage) or
1 Meg (Modern) volume, for
humbucker pickups



Illustrated: 500 series ToneStylers with shielded cables.
For 300 series ToneStylers with unshielded wires,
put the supplied ground lug lockwasher on the mounting
bushing, and solder a 3rd wire to the guitar's ground.
